

申請虛擬伺服器空間

國立臺中教育大學 數位內容科技學系

吳智鴻 教授

EMAIL:CHWU@MAIL.NTCU.EDU.TW

步驟

1. 註冊帳號
2. 信箱收信，確認帳號與啟用。
3. 至虛擬主機網站，用啟用後帳號登錄
4. 至中控台(例如CPANEL)取得網站相關帳號密碼與網址
5. 在dw先把網站管理設定好
6. 用FTP上傳網站(EX. FILEZILLA)
7. 用FTP上傳資料庫.SQL
8. 在中控台建立資料庫

Free Hosting / Free Web Hosting

Free Hosting

Byet provides you with an unlimited ad-free load balanced free web hosting service including PHP, MySQL, FTP, Vistapanel & more!..

For any web site from a small business brochure, pictures of a tropical holiday, to powerful dynamic websites for a gaming clan etc. Byet Internet has the right services for you and at the right price.. \$0.00!

Byet gives you the choice of your sub domain. You can stick with yoursite.byehost.com, or you can pick from another 7 great names we have available. With MySQL, PHP, FTP, VistaPanel (our specially designed control panel) and other features, you can host heaps of scripts with no worries. Adding your own domain registered at any domain registrar is just a few clicks and is hosted on your free Byet account!

Every free web hosting account as of August 2014, now gets the awesome Softaculous script installer inside the free hosting control panel. This great application installs over 333 of the most popular scripts such as Blogs, Photo Galleries, Online shopping carts, Social networks and much much more!x

Free Hosting Network:

We own, manage and maintain our own 'load balanced' clustered hosting network. Consisting of powerful 24 core CPU Xeon web servers, a 'GRID' of MySQL servers, mail servers, FTP servers, hardware load-balancers, a storage-area-network (SAN) and interconnecting fiber channel distribution servers.

All of this hardware combined allows us seamlessly spread website traffic across multiple servers simultaneously, giving your web pages superior speed and reliability, ensuring your websites stay online and running quickly at all times, Uptime is Byet's No.1 goal and your biggest requirement as a webmaster.

Free Hosting Plan:

Signup for Free Hosting

Fill out the form below using Mozilla Firefox and your free hosting account will be activated instantly!

(Internet Explorer is not recommended)

Please do not translate this page, you will not be able to signup through a translator!

Sub Domain Name

This will create your sub domain, for example if you enter shopping, you will be provided shopping.byethost.com as your free sub domain

Your Password

This will be used for cPanel login, FTP and your MySQL password

Your Email

Must be a valid email address you can receive an activation link

在中控台建立資料庫

The screenshot shows the Vistapanel MySQL Databases management interface. At the top, the header includes the Vistapanel logo and the text "byethost.com". On the right side of the header, there is a user ID "87_21815979" and a "LOG OUT" link. The main content area is titled "MySQL Databases" and contains a brief explanation of MySQL databases. Below this, there is a section for "Create New Database" with a status bar indicating "Currently using 0 of 400 available databases." A form for creating a new database is visible, with the "New Database:" label and a text input field containing "b7_21815979_". A "Create Database" button is positioned below the input field. Underneath, there is a section for "Current Databases" with a table header containing "MySQL DB Name", "MySQL User Name", "MySQL Password", "MySQL Host Name", and "PHPMyAdmin". A message below the table states: "Experiencing issues with phpMyAdmin? Log out of your control panel, clear cookies and sessions (not available in all browsers) and log back into your control panel and try again...". At the bottom, there is a promotional message about premium hosting benefits, including a "Click here" button. The footer of the interface contains additional information about premium hosting plans and pricing.

MySQL Databases

MySQL Databases allow you to store lots of information in an easy to access manner. The databases themselves are not easily read by humans. MySQL databases are required by many web applications including some bulletin boards, content management systems, and others. To use a database, you'll need to create it. Only your MySQL Username (same as your control panel login user) has privileges to access a database and read from or write to that database.

Create and remove MySQL databases for use on your account easily below

Create New Database

Currently using 0 of 400 available databases.

New Database:

[Create Database](#)

Current Databases

MySQL DB Name	MySQL User Name	MySQL Password	MySQL Host Name	PHPMyAdmin
---------------	-----------------	----------------	-----------------	------------

Experiencing issues with phpMyAdmin? Log out of your control panel, clear cookies and sessions (not available in all browsers) and log back into your control panel and try again...

Did you know premium hosting allows you to create individual MySQL users and privileges? All premium accounts have upto 1GB of mysql storage. To see a demo: [Click here](#)

Premium hosting MySQL server benefits :

- Create individual MySQL users.
- Set individual MySQL grants per user.
- Remote MySQL connections.

Every paid hosting plan includes a free Top Level Domain name!
(Paid accounts have unlimited installs) Prices starting at only \$3.99 per month Find out more about Premium Hosting today!
